About me

Hello there! My name is Mohammed-Aymen Benadra, I'm 20 years old, and I'm a passionate developer that loves tech and IT industry, easily collaborate and create relations in small and big teams, and I'm a hard worker that loves to make the work done as efficiently as possible with mind and heart poured within. I love to participate in competitions and hackathons as it allows me to meet new people, learn new things, and discover new possibilities for my skills to be sharpened.

EXPERIENCE

➤ Full-Stack Web Developer & IT System Maintainer

○ *Agence Urbaine de Safi-Youssoufia, Safi, MA/ February 2020*

An extra ordinary internship where I learned many new skills such as PHP, Laravel, Gantt, Reports making, working in a team of engineers...etc. And where I managed to complete the needed work half the given time and focused on bugs hunting and helping in the whole agency departments to fix various IT issues and

➤ Online International Intern

○ *The NEG, Utrecht, NL/ Sept 2019 – April 2020*

An international internship with the NEG from home, where I'm asked to perform various tasks like finding some information on the Internet, translating some materials to my mother language, contacting their partners in my region, preparing some information materials...etc.

➤ Online International Intern

○ *HeySuccess©, London, UK / Sept 2019 – May 2020*

The HeySuccess Internship Challenge is the best and most unique online internship experience in the world. During this internship, we work on very practical and interesting challenges from marketing and creating viral content to sales, public speaking, and project management.

➤ Full-Stack Web Developer [Freelance]

○ *DataFC©, Safi, MA / Sept 2019 – October 2019*

I was responsible for the conception, creation, and administration of the company's dynamic website that I created using latest web technologies for the back end and the front-end.

➤ Full-Stack Web Developer & Executive Assistant

○ *ISTA 1 Safi, Safi, MA / July 2019 – August 2019*

I was responsible for working with a direction in student files, applications, and paperwork with the supervisors. Also, I was responsible for creating a dynamic website for a company called digital technologies as part of my internship.
